

By and By

I watched the weather coming
As it moved in through the sound
The last leaves blowing sideways
On their big flight to the ground
First will come the rain
And then the snow is going to fly
By and by

I'd like to say I'm sorry
For the selfish things I've done
The careless words & promises I've scattered on the run
Maybe it'll come that I'll forgive myself in time
By and by

*The sun and the moon they turn and never stray
But you and I aren't made that way
Who put greed in our hearts anyway
That was the first mistake*

I really hate to say it
But I'm pretty sure it's true
No god's going to save us
It was up to me and you
Soon will come the day
We're going to say we should have tried harder
By and by
Oh by and by

I didn't see you coming
No I didn't hear a sound
You were suddenly in front of me
Spinning me around
And everything I thought about
The road that I was on is changing
By and by
By and by
It's all changing by and by
