

Canada

When I came to these shores
Nothing but a lost and a lonely soul
Looking for the a life and a little more
And I found you here

From the Salish Sea to Peggy's Cove
I fell in love with your northern road
You were the song & the seeds I sowed
Oh I found you here

**Oh oh you're honey to a honey bee
Like water to a thirsty tree
That's what you are to me
Oh oh you're the air
In the life I breathe
You're the earth under my feet
That's what you are to me**

Friend by friend and town by town
I made my way to the life I found
Planted my feet on the northern ground
Where I found you here

Barely older than nineteen
I pledged my promises to the queen
I fell in love with the blue and green
Of Canada

**Oh oh you're honey to a honey bee
Like water to a thirsty tree
That's what you are to me
Oh oh you're in the life I breathe
The earth under my feet
That's what you are to me**

*Oh I feel it in my bones and in my blood
I just knew it was my home and there was
Something that I loved about the people
And their ways
And that I'd be here for all my days*

When I came to these shores
Never could I dream
What you had in store
I was looking for a life
And whole lot more
And I found you here

From the Salish Sea to Peggy's Cove
I fell in love with your northern road
You are the songs and the seeds I sow
Oh Canada
