

**Flying**

***Help me out of this space  
I'm crying  
And I don't want to lose in the race  
Everything we do  
Is just another trying  
And some never lose  
Their fear of flying***

The music in those nightclubs  
Seldom satisfies my need  
For a simple song  
The world can sing along  
Straight from the heart  
Give me my part

***Help me out of this space  
I'm crying  
And I don't want to lose in the race  
Everything we do  
Is just another trying  
And some never lose  
Their fear of flying***

I went to hear my friends  
Play away the night  
And I listened so carefully  
You know, the tunes were hot  
And the people dancy  
But oh, won't you play one for me  
Here we go  
Touch my soul

***Help me out of this space  
I'm crying  
And I don't want to lose in the race  
Everything we do  
Is just another trying  
And some never lose  
Their fear of flying***
