

Long Nights

When you get lonely and you don't know what to do
Maybe you'll call me and I'll help you through
When you're looking for something
In the middle of the night
To get you through to the morning light

Sometimes it's music
Sometimes it's wine
Some nights it's nothing more than wasting time
When you're looking for something
In the middle of the night
To get you through to the morning light

*It's those long nights
You've got to get through
When there's no one but you
Long nights*

Live like an exile, love lie a spy
Take care of business and you're just getting' by
You'll be looking for something
In the middle of the night
To get you through to the morning light

Some night's it's TV
Some night's it's love
No doubt your company is more than enough
When I'm looking for something
In the middle of the night
To get me through to the morning light

*It's those long nights
You've got to get through
Long Nights
When there's no one but you
Long nights*

*It's those long nights
You've got to get through
Long Nights
When there's no one but you
Long nights
They'll get the best of you*
