

## Starlight

Starlight, first star tonight  
I was passing your window  
When I noticed your light  
It was burning  
And the flame drew me in  
I want to be there

*Will you hold me tonight  
Hold me tonight  
I'll close my eyes  
And wish that I may, wish I might  
Hold you tonight*

Shadows, I'm lost in the cold  
With fear close behind me  
Wherever I go  
It's that heartbeat  
That's calling to me  
I want to be there

*Will you hold me tonight  
Hold me tonight  
I'll close my eyes  
And wish that I may, wish I might  
Hold you....*

Tonight, I'm going to steal away  
Take that light in your eyes for home  
I never knew how strong it could be

Oh hold me

Starlight, you're faith burning bright

Stolen by lovers

In the arms of the night

I lie softly and so patiently

Oh, I want to be there

*Will you hold me tonight*

*Hold me tonight*

*I'll close my eyes*

*And wish that I may, wish I might*

*Hold you tonight*
