

That's What I Thought Too

If I'd known when I left this morning
It was my day to die
I'd have stopped and kissed my
 angry wife goodbye
I'd have said my dear tomorrow
Tomorrow think of this
My tender loving touch and this sweetest kiss

We always think there's time
We can fix it
Find it if we miss it
That this won't happen to you

Ooh that's what I thought too
Ooh that's what I thought too

Once I surely loved her
Then she turned bitter cold
Nothing I could do or say
 could make a happy home
Now I sit here wishing
For all our wasted time
You never know when that step on the road
Is the end of the line

You always think in time that you'll fix it
Find it if you miss it
That this won't happen to you

Ooh that's what I thought too
Ooh that's what I thought too

Life is short or life is long
Either way you see it
 needs a heart that's strong
It's going to say you've got to stay or go
But the racket of the wheels
 on the winding road
Is like an undertow
Oh oh oh oh

We always think there's time
That we'll fix it
Find it if we miss it

I'm here to say it's not true

Ooh that's what I thought too
Ooh that's what I thought too
Ooh that's what I thought too
